

CRASH ON I-65 CLEARED

Monday, 25 March 2013 13:10

The crash on northbound I-65 just south of Cave City has been CLEARED.

(UPDATE) Crews anticipate another 1-2 hours before this is completely cleared. Motorists may wish to seek alternate routes during this time, traffic is backing up and creating longer delays.

A tractor trailer crash on Interstate 65 in Barren County at mile marker 52 just south of Cave City still has traffic pushed down to one lane for the northbound direction.

Preparations are being made to remove the semi from the crash site. This may require closing both northbound lanes briefly in order for the towing company to retrieve and remove the truck from the right of way.

Traffic is currently flowing through the crash site area with minimal backups. Additional information will be provided as it becomes available.
