

Glasgow Fire Chief Tony Atwood updated information on a fire last week that damaged a home at 230 Kelly Drive in Glasgow.

Chief Atwood says the State Fire Marshal has completed his investigation and has ruled the to have been electrical in nature. On June 30th The Glasgow fire Department responded to a report of smoke was coming from a house at 230 Kelly drive. On arrival firefighters found smoke coming from the roof. Entry to the house was made and the fire was determined to be in the attic. Access was made into the attic over the bathroom and the fire was extinguished.
