

BULLDOZER ROLLS DOWN INCLINE AT CONSTRUCTION SITE IN CAVE CITY

Wednesday, 12 February 2014 08:10

Officers with the Cave City Police Department responded to Highway 90 in front of Cracker Barrel yesterday, along with the Barren-Metcalf EMS and the Cave City Fire Department. Upon arrival, it was determined that a bulldozer belonging to Scotty's Construction, had been rolled several times down the hillside at the location where there is ongoing construction at this time. The operator of the bulldozer stated that he was on a steep incline, when the bulldozer overturned at least three times before landing on its side at the foot of the hill. The bulldozer operator refused medical treatment at the scene.
