The same night, thieves took eight hens from Mrs. Baird but had the kindness to leave the little chickens the hens were hovering. Some shotguns are badly needed in that neighborhood!

Mrs. Hammer is not in as robust health as she once was, and she decided to sell the building and live on the funds. The building is a large two-story brick and is famed all over this section. Where Mr. and Mrs. Hammer will live, or what Mr. Norris proposes to do with the property, we are not able to say.

Mr. Frank Reynolds, 68 years of age, was found dead in his corn field Thursday afternoon where he had been plowing. When he failed to return to his home late in the afternoon, a search was made and his body was found where he had been dead for some time. He lived about one-half mile from Glasgow Junction on the road to Bon Ayr. Coroner Louie Fisher pronounced that a cerebral hemorrhage was the cause of death. Mr. Reynolds was a highly respected citizen and is survived by his wife, a number of children, and one brother, Mr. J. L. Reynolds, who lives in the Glasgow Junction section.

His leaving Glasgow is much regretted by a large section of the city, especially by those of the young people who are athletically inclined.

Since the suit brought by the Community Hospital against Barren County was declared unconstitutional, ministers of the town presented the matter to their

JUNE 30, 1932 (Cont'd) Page 5 congregations at last Sunday's morning service and, at night, a meeting was held at the Baptist Church. Those present were asked to express themselves as to whether the hospital should be closed or supported by voluntary donations. Pledge cards were passed out, and donations asked for, with the understanding that it would take about \$2000 to support the hospital for three months. \$1100 was pledged that night and arrangements were made to canvass among members not present, with the confident expectation that the remaining \$900 would be subscribed. The decision of the courts has put a new angle to the hospital situation, which will have to be worked out. It would be not only a disgrace but a calamity to close such a useful and necessary institution after spending some \$300,000 to get it established, and after it has proven its absolute necessity.
