Fire Razes Houchens Market. Glasgow was the scene of another disastrous fire early Monday morning, February 15, that resulted in a loss of approximately \$100,000 to Houchens Market on West Main Street. Prompt and efficient work by the Fire Department, augmented by the Auxiliary Firemen of the Civil Defense Corps prevented spread of the fire to the adjoining Glasgow Sales Company warehouse. Mr. Houchens stated tonight that he had completed arrangements for securing ample stocks of merchandise and that all his stores (except No. 2, which was destroyed) will be supplied without interruption. Also destroyed by fire was Parrish's Barber Shop and a cream station operated by Turner Gregory. (1)

Grocers will not be permitted to sell canned and bottled fruits, vegetables and juices, frozen fruits and vegetables, and dried fruits between February 21 and March 1. No shopper should be inconvenienced during this "freeze" period because the allowance of five cans per person (for which no stamps will be deducted), plus supplies of fresh fruits and vegetables, should provide ample food during the week. The Office of Price Administration advises that it has received some complaints from people who think they have to give up all cans over five in number. This is not true – they merely have to declare them; however, stamps will be required for further purchases, (4)
