There is a growing belief that the assassin's bulletins last week were intended for Chicago's Mayor Cernak instead of for Roosevelt who, it is believed, was only the supposed intended victim. Proof is said to have been found confirming this belief, even though the gunman had

shouted that he "killed all presidents."

Sheriff and Jailer Must Hello at Their Own Expense. At a recent meeting of the Barren Fiscal

Court, the body declined to pay telephone bills for the offices of Sheriff and Jailer, and an order was entered to this effect. We understand that the law directs that the Fiscal Court shall pay for telephones installed in the two offices, which the present occupants claim the County has been doing since they went into office. We have no criticism or comment to offer.

Since The Republican's office and equipment were destroyed by fire on December 25, 1932, Mr. Richardson, editor of The Times, has been mighty kind to us in printing our paper for the past ten weeks. We greatly appreciate the kindness of our friends and will say now that if The Times gets in trouble, and we can help them, our office and equipment will be open to that paper. We trust that by this time next week, we will be in shape to print our own paper and invite our friends to call and inspect the entire office.

Window panes were broken and auto tops smashed. Creeks were flooded. Tons of rock were washed off the county roads. In his death, Barren County loses one of its good, quiet citizens, who had no enemies. He is survived by his wife and four children: Messrs.
