AD. If Mattresses Had Wheels. Automobile factories come out with new models every year, and you know how automobiles have progressed. But people do not drive around on mattresses, so mattress progress is known only to a fortunate comparative few. The Simmons-Beautyrest mattress is as far ahead of the mattress you may now be sleeping on, as a Rolls-Royce is ahead of a horse and buggy. Come in today and try out the new Beautyrest. The cost is less than you may expect – less than two cents per day – the best investment in health you’ll ever make. F.P. Williams & Company.

Gosh, Another Lawyer? Mr. and Mrs. Carroll Morris Redford are the proud parents, and we really mean proud, of a baby boy who made his arrival at the Samson Community Hospital last night. Mother and son are doing fine, but the proud young father has a tough proposition and, to make it tougher, it has been elected to give the youngster the moniker "Carroll Morris, the second." Mr. Redford is a member of the law firm of Richardson and Redford.

TRUE. Repeal of the liquor law has brought three disappointments. Neither the liquor nor the price is what it used to be, and the bootlegger remains. (From the Courier-Journal editor)

AD. THINK! Have Money! The Thrifty Squire HAS something because he puts it away in a SAFE place and LEAVES it there and takes out only what he needs. Follow his example. Have

your money SAFE in our bank. Citizens National Bank. Make OUR bank YOUR bank.

Tompkinsville Changes Postmaster. During Woodrow Wilson's presidency, Dr. B.C. Bradshaw was postmaster at Tompkinsville. But when Republicans came to power, Bradshaw had to step aside and Honorable Hebron Lawrence was appointed as postmaster. Hebron has had this office for a dozen years or so and has been a fine official, but when the New Deal appeared on the scene of action, Hebron had to move aside and let a Democrat hand out the mail. So Dr. Bradshaw, who was on the right side of the fence, took over the affairs of the post office again last Wednesday.

Chamber of Commerce at Edmonton In Prospect. A movement is underway at Edmonton for the organization of a Chamber of Commerce and there lacks only the call of an organization meeting to put it over. Edmonton, while not as large in numbers as some other localities, has a splendid type of business and professional men to make up such a body, and we hope they are

successful.

You Can Never Tell. Who would have thought of George Evans being a horse fancier? Fords would have been our guess. But he is developing, along with other lines, not horses exactly, but ponies. He has accumulated about eight ponies and on these warm days he spends much of his time just admiring them. Asked what he intends to do with them, he said, "I don't know." Neither do we.
